ABOUT ME

I am an aspiring developer pursuing my BTech in Computer Engineering from Dwarkadas J. Sanghvi College of Engineering. I am keen on working everyday on myself to learn new things. With a keen eye for detail and a love for all things tech, I'm on a mission to push boundaries and create meaningful innovations.

EDUCATION

B.Tech in Computer Science DJSCE 2022-2026 - 9.1 SGPA
HSC - SVIS Kandivali : 89% , SSC - SVIS Gorai : 95%

WORK EXPERIENCE

- **Backend Development Intern at InnoByte Services**   **April 2024 - May 2024**
  1 month Online internship
  Created Backend for a website independently
- **Junior Development Intern at Express Rupya Financial Services**   **June 2024 - Present**
  Managed various websites of the company along with the backend server
  Optimized the company's scraper
  Created a new project of Attendance Portal for the company

PROJECTS

- **EduCare backend**   [Github URL]

  Created using Node.js Express, Prisma and Neon (Serverless PostreSQL). Used multiple modules llike cloudinary multer resend JWT bcrypt etc. I even added additional feature of logging and pagination.
- **Photo Folly**   [Github URL]

  Created a simple fullstack project to upload images by using cloudinary.
  MERN stack project
- **Web Scraping using Python - Beautiful Soup**   [Github URL]

  Created a flipkart web scraper which extracts necessary data for all kinds of user requirements using BeautifulSoup. Basic knowledge of selenium.

POSITIONS OF RESPONSIBILITY

Node.js Mentee, DJ UNICODE   **July 2023 - Present**

- **Created a complete backend for a clone of Quora Application** [Github URL]
  - User Authentication Login Signup - Multer Cloudinary for image uploading - Server deployed on render
  - Node Express Mongoose MongoDB with relationships
- **SocialSync** [Github URL]
  - Working on the backend for a collaborative project of a socializing platform
  - Application for live streaming for creators where users can watch their creators video live and chat with them in real time. Efficient CRUD endpoints for all the schemas.
  - Node Fastify Prisma Neon (Serverless PostgreSQL)

Creatives Co-Head, DJSCE ACM   **July 2023 - Present**

- Managed several technical and non-technical events soft (Canva) and hard creatives.
- Part of the organizing committee of a 24-hr hackathon conducted of over 1.5L price pool.

SKILLS

Backend   : Node.js, Express, Fastify, Mongoose, Prisma
Database : MongoDB, MySQL, PostgreSQL, Neon, Firebase
Frontend : React.js Material.UI Bootstrap Tailwind SASS Figma Canva
Languages : Python, Javascript, C, Java
